

THE Gleichen Call

Thirteenth Year, No. 16

GLEICHEN, ALBERTA, WEDNESDAY, JULY 9, 1919

Keen Interest Now Taken in Exhibition

Interest in the tenth annual Gleichen exhibition continues to grow steadily and every few days some one comes along with something new. In fact there is more real live interest manifested than there was in any of the nine fairs that have been held in the past.

At the regular monthly meeting last Thursday evening there were only about a dozen present, owing to so many attending the Calgary fair, yet those present showed a very lively interest in the business brought up, although only urgent matters received attention as it was thought best to postpone as much business as possible to a meeting called for tomorrow night, Thursday.

A few copies of the prize list were handed around and after discussing it a short time a few more prizes were added to the long list. It is interesting to know that the list comprises over two more pages of prizes than the last and that the special prizes total up to \$193. In fact it is a good list and copies are now obtainable for the asking by all interested.

A letter from the International Harvester Co. asked permission to demonstrate their tractor and J. H. Riley offering his field adjoining the fair grounds for plowing, the secretary was instructed to write the company offering to assist in any way.

During this discussion it was shown that James Yeoung and others would make exhibits of machinery and that the fair this year will have a very fine industrial display.

A letter from the May Airplane Co. of Edmonton offered to supply an attraction in giving flights at our exhibition was most enthusiastically taken up for discussion and the secretary is now obtaining full information and if the cost is not too great it may be secured.

Mr. McLean reported that the Women's Institute were willing to meet the Association's request to take charge of the ladies department at the exhibition.

It was decided to ask the Women's Institute to find out what accommodation there will be available for students attending the new Gleichen Agricultural School when it opens this fall.

By suggestion of Pres. Dafee the secretary was instructed to ask Supt. Don M. Bark to make a display of products from the C. P. R. farm at Brooks, and also to act as judge in the garden competitions.

P. MacLean reported the Town Council was favorable to giving the land through the cemetery to open up Eighth avenue in order that an outlet be made past the Association's buildings to the new Agricultural School, but that a by-law would have to be passed to make it a legal transaction.

The meeting was postponed to 8 o'clock Thursday night.

Cecil Barrie, the magician and illusionist, will present his wonderful act entitled "A Drawing-Room Vision" in the Gleichen Opera House on Friday evening, July 11th.

The Queenstown U. F. A. picnic on Friday, July 18, will be held on the Bow river flat east of A. E. Jones' residence at the South Camp and all are invited.

35 cents buys a Third Stamp.

Baseball Tournament Wednesday Next, July 16th

Manager W. Walsh has completed all arrangements to put on a baseball tournament on the Gleichen Fair grounds diamond next Wednesday, July 16th, which will be followed by a dance in the Opera House that night.

A purse of \$200 has been offered to be divided into prizes of \$100 for first prize, \$50 for second and \$25 for both third and fourth. The Bassano, Strathmore and Rosebud teams have agreed to attend and compete with Gleichen, which fact assures the success of the tournament and the rooters of good fast playing to exercise their lung power on.

The first game will start sharp at 10:30 Wednesday morning, the next at 2:30 in the afternoon and at 6:30 that evening the two winning teams will play for the final honor and \$100.

other teams.

All games are to start promptly on time, which will be something new and an extra good drawing card. On this condition the stores have agreed to close during the afternoon game. So be there for the special treat.

All know the keen rivalry between Strathmore, Bassano and Gleichen and will be keen to see them in this contest. The Rosebud team is a new one, but those who have seen the boys in action state they are good players and fine sports, who may have a surprise to spring on the

The Gleichen Citizens Band will be in attendance at the games to enliven the proceedings and it is the aim to make one and all enjoy themselves.

The dance that night also promises to be a good one as the Gleichen boys are most anxious to entertain their visitors and will spare no effort to make it a success.

Chatauqua Better Than Ever

Friday of next week Chatauqua opens for a full week's engagement at Gleichen and we are assured the program for this year will be much better than either of its two predecessors, and, with perhaps a few exceptions, they were generally admitted good and many items exceptionally good and well-rendered. Therefore, all may be prepared to spend a week of real pleasure and enjoyment.

As is generally known a number of citizens throughout the district have guaranteed Chatauqua a certain amount to come to Gleichen and each year have had to pay considerable extra that all may benefit thereby. We understand the subscribers could have been saved this cash outlay last year had all purchased season tickets before the day on which the first entertainment opened. In fact it is considerable cheaper to buy season tickets, and the committee advises all to secure their tickets not later than Thursday next, July 17th.

Veterans Memorial Hall for Chancellor

A veterans memorial hall is to be erected at Chancellor suitable for use as an assembly hall for the mutual welfare of the returned veterans and others of that community socially and otherwise, and to commemorate the heroic deeds, self-sacrifice and triumphant victory of the sons of the British Empire, who fought and died in the defense of justice and liberty, so reads a subscription list that is being circulated in that district and generously subscribed to. At the Standard sports tags were sold and the goodly sum of \$53.51 realized for the hall.

At Chancellor there is the Anzac colony of returned men of about twenty-two families, who appreciate the C. P. R. way of assisting out-

soldiers. They are making good and with bright prospects of a good crop are happy and content.

As there is no place of meeting in that vicinity it is necessary that a hall be provided for meetings, dancing and entertainments of all kinds, and a more suitable name could hardly be suggested than the Veterans Memorial Hall. Already a good sum has been promised and it is hoped a ready response will be forthcoming from all to make the hall all it should be.

Born—At the Scottish Nursing Home, Calgary, on June 29th, to Mr. and Mrs. Jim Osler, a son.

The regular meeting of the Town Council will be held next Monday, July 14th.

If you are interested in this town read By-Law No. 97.

District Conference Of The Church of Brethern

Included in the district which is represented at this meeting is N. Dakota, Eastern Montana and Western Canada. The territory occupied by the church is divided into districts for convenience and economy and each district holds its annual conference as well as one general annual conference which has already met in the United States. There is a movement on foot to make a separate district in Canada. These meetings are being held in the Bow Valley Church, commencing on Tuesday and will continue over Thursday. There will be sermons, lectures and addresses from the foreign mission field on each evening during the week.

Miss Sadie Miller who has spent sixteen years in active mission work in India will address the meeting on Wednesday and Thursday afternoons. Elder David Hallinger of Redcliff, Alta., will follow these special meetings with a protracted effort which will continue several weeks.

To any and all of these meetings the public is cordially invited to attend.

Among the early arrivals from N. Dakota is Geo. C. Dierdorff and wife, William Shirley and wife, and Elder Shorb. Elder Warren Slaubaugh of Washington arrived on Sunday and preached a very helpful sermon on Sunday evening.

For Sale

Tenders will be received by the undersigned up to and including August 5th, 1919, for the purchase of a two story frame building 26x75 and five lots number 7, 8, 9, 10 and 11 in Block 1, situated in the village of Standard, Alberta.

The building is suitably adapted for merchantile or warehousing purpose or if so desired the purchaser can wreck the building and get a considerable amount of very useful lumber out of it.

Terms on application.

The Coming Of Peace

The 28th day of June will stand for all time as one of the most memorable dates in the calendar, and as one of the most important anniversaries for future generations to celebrate, for it was on this date in the year of grace, 1919, that the Treaty of Versailles was signed, thus officially ending the Great War which began in 1914.

By a strange coincidence, it was on June 28, 1914, that the Archduke Franz Ferdinand, heir to the throne of Austria-Hungary, was murdered at Sarajevo. It was this tragedy that was assigned as the reason for Austria declaring war on Serbia, and thereby precipitating the terrible conflict which shook the world to its very foundations. The signing of the peace treaty on June 28, five years later, was not by pre-arrangement, the date having been postponed from time to time in order to complete negotiations, and finally to enable Germany to secure the consent of some of her leading men to assume the responsibility of affixing their signatures to the document.

It is not necessary at this time to recall the detailed terms of the peace treaty which Germany, after many declarations that she would never sign, finally bowed to the inevitable and signed unconditionally. Suffice it to say, that it is probably the most humiliating admission of defeat, and the acceptance of the most abject terms of punishment that any great nation in all the world's history ever signed. Yet Germany had to sign. The only alternatives were anarchy at home, and the ultimate occupation of the whole country by the armies of the allies.

It is a stern peace, but a just peace. It had to be stern in order to be just. Even so, it is undoubtedly a more merciful peace for Germany than Prussian militarism would have enforced on the allies had Germany proved victorious in the war. This fact is proven by the statements of leading German statesmen and semi-official newspapers made in the days when victory for Germany appeared to be not at all improbable.

The great work of world reconstruction has now to be undertaken. It will call for the patience, wisdom and energy of the statesmen and people of all nations in order that it may be successfully accomplished. The problems confronting the world on a return to peace are quite as great as the problems which arose in the prosecution of the war; in fact, the peace problems are more complex and will be found even more difficult of solution. They cannot be solved in a year, or in several years, but for long years, even generations to come, the nations will find it necessary to deal with acute questions which had their origin in the Great War.

The allies wait for a long time to come have to remain prepared and watchful of Germany. Germany, al-

though defeated and accepting the terms imposed upon her, is far from repentant. There has been no regeneration in Germany. At heart, the people are still arrogant and defiant, but for the time being impotent and helpless. The spirit of Germany has not changed, and although it may now style itself a republic and not an empire, there is lacking any real evidence of the sincere acceptance of democratic institutions.

Throughout the war Germany proved to be a treacherous and barbarious foe. She treated her solemn treaty obligations as "scraps of paper." On the eve of the signing of the peace treaty she gave further evidence of the fact that she has not reformed in this respect. The sinking of the surrendered German fleet at Scapa Flow was a characteristic piece of German treachery and a violation of the laws of war. By the terms of the armistice Germany was required to surrender her fleet. She accepted those terms. The fleet was interned at Scapa Flow. Then on the eve of the signing of peace the Germans scuttled the ships, destroying property which did not belong to them.

By this act the German navy added the crowning infamy to its history. Its record all through has been one of villainy. It skulked in its harbors and made war by submarine assassination; it surrendered without a fight; and after the surrender it treacherously destroyed the surrendered property. This act, without a parallel in the history of the world, imposes on the allies the necessity of keeping a close eye on Germany in the years to come to ensure that she lives up to the terms of the peace treaty she has now signed.

Like a Grip at the Throat.—For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted, and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the restricted air passages; as thousands can testify. It is sold by dealers everywhere.

Many Eskimos Died From Starvation

Caribou Failed and Fish Were Difficult to Get

Prince Albert—Famine stalked last winter among the Eskimos of Chesterfield Inlet, Hudson Bay, according to word just received. From Father Turquetil, O.M.I., and the mission at Chesterfield is much worried for lack of news of many of the Eskimos who formerly visited the station. The caribou have failed and there is no fish, writes Father Turquetil in a letter to friends in Prince Albert. Father Turquetil is the French priest who, about eight years ago, sent the report that the remains of Andre's balloon had been found and set the world agog with the news. He is at present at Chesterfield Inlet with Father Pigot studying the Eskimo language and carrying on the work of his mission. The first inkling that hunger and want were approaching came last November when a famished Eskimo, trying to reach the mission, fell in a faint on the ice of the lake near. It was not until the following day that he became conscious, when he gave word of his old squaw, whom the missionaries finally discovered under the remains of an old tent torn by the wind. She was stoically waiting death.

Many Eskimos died, for the Eskimo had put by no great stock of food. When the caribou failed and they tried for fish, they were difficult to get. In February it was a day's work to chop a hole through the ice, and even then the fishing could only be found in the deep places. When a snowfall came no one could venture out, and death stared them in the face. Last year forty or sixty Eskimos perished in this way. A short time ago the missionaries heard of one family where five children died of hunger.

Why isn't prohibition a beer check?

Industry Murdered

How Belgian Plants Were Wrecked By Germans

The cruellest devastation in Belgium was not military, but was the deliberate looting or destruction of industrial plants. In fact, the best reply to the Germans' objections to the peace terms might be to take them through the wrecked and pillaged factories. Their delegates exclaimed that under the treaty "an enormous part of German industry would inevitably be condemned to destruction." The allied reply assured them that this fear was false, but for Belgium the destruction is already done. The organization whose purpose was to ruin Belgium industrially was made up of two brigades, we learn from a Liege correspondent of the Paris Matin, the first of which was engaged in dismantling machinery in order to carry it off into Germany and set it up there. More "frightfulness" characterized the other section of the organization for its duty was simply to destroy machinery, blast-furnaces, and in general all appurtenances of the steel industry. The head of this organization was Dr. Quesbert, a professor of metallurgy at Aix-la-Chapelle, of whom we read as follows:

"He arrived in Belgium toward the end of 1917 with his gang of wreckers. It appears that at this period Germany was beginning to have doubts of gaining a military victory. Knowing she could no longer hope to annex Belgium, she decided to assassinate her by a thrust in the heart, namely, Belgian industry."

"All the directors of the big Belgian factories became acquainted at this time with Dr. Quesbert, for he called upon them, suave and polite, with an apology for the necessity of 'disturbing' them. Then softly and kindly he made known his request, which was nothing more than a lie. Said he:

"The German high command must have guns, more guns, always more guns, and munitions. To provide them, we must have steel, more steel, always more steel. Now as you have in your plants plenty of steel, in the shape of machines, we purpose to destroy some of them in order to recast them for the manufacture of our needed guns. . . . We shall try not to cause you too much pain or annoyance—in the beginning. . . ."

This announcement, slicked over with an oily smile, was immediately followed by the incursion into the steel plants of the German wrecking crews, who used either dynamite or a destructive weapon they called the "sheep." With dynamite they dismembered furnaces and the platforms of masonry on which machines were mounted. The "sheep," we are told, are heavy pieces of steel which were hoisted above machinery marked for destruction, and then allowed to fall from a height, with the result that in one instant these delicate and intricate machines were smashed into fragments. The damage done at the big plant of Angres-Marbais, which before the war employed 9,000 men, is estimated at approximately \$10,000,000, according to the money value of 1914, which is put today as equaling \$40,000,000. At Cockerill, a plant then employing 11,000 workers, it is reported that the damage amounted to \$15,000,000 according to the rate in 1914, which means today about \$60,000,000. The Matin's correspondent continues:

"Nor was this destruction caused, as they pretended, in order that they might have material to manufacture guns. The proof lies in the enormous quantity of steel debris that they did not bother to carry away and which is heaped among the ruins. Their sinister object was to destroy Belgium's magnificent industry in order that its competition with German trade might suffer a long period of suppression after the war."

Germany merits only the severest form of just reprisal in the re-establishment of industrial Belgium, and he suggests the completest reparation. Meanwhile he tells us that anything like supersensitiveness in these matters on the part of the entente amazes people at Liege, who say: "Belgium's industry has been murdered. Must one waste words and ceremony on murderers?"—The Literary Digest.

Saskatchewan Beef for Italy
Regina, Sask.—Gordon, Ironsides & Fares have shipped 17 cars of Saskatchewan beef, valued at \$170,000, direct to Italy. Ten cars from Regina, three from Moose Jaw and four from Saskatoon.

Cold Storage
It is a very vexed question, but there are many Canadians paying high prices who do not understand why "forty million dollars worth of frozen beef is in cold storage in Canada."—Kingston Standard.

Some women are not as bad as they are painted.

Wind And Thermometer

You Cannot Make Mercury Contract By Fanning Thermometer

There is a good deal of sense in this answer in a contemporary "who answers the question, Does the wind affect the thermometer?"

"No. Wind is simply the air in motion, and the motion of the air does not change its temperature. Wind, coming in contact with the human body, produces a sensation of coldness, not because it is colder than the air at rest, but because its rapid change of contact with the body causes a sensation of coldness by evaporation. This sensation may be caused by rapid contact of warm air with the body as well as by the rapid contact of cold air. The use of a fan in warm weather brings relief not by cooling the air, but by setting it in motion and bringing rapidly changing masses of it in contact with the human body. But it would not have that effect on an inanimate and insensitive thermometer. You cannot make mercury contract by fanning the thermometer."

Minard's Liniment Cures Colds, Etc.

To Stop Exporters

Drastic Powers Conferred on Body Which It Is Hoped Will Cope With Profiteers

Ottawa—Drastic powers are conferred on the board of commerce which the government is creating. It will consist of three members, the head to be a judge or lawyer of ten years standing. The board will administer the act being passed concurrently regarding combines, mergers and fair prices. It is "empowered and directed to restrict and prohibit the formation and operation of combines."

Wide powers of investigation are given and hoarding and extortion forbidden. By the penalties the offenders may be prosecuted provincially or may be restrained from carrying on by the board. An appeal is allowed to the government on question of fact, and to the supreme court of law.

Minard's Liniment Co. Limited.

Gents—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good.

WILFRID GAGNE,
Prop. of Grand Central Hotel,
Drummondville, Aug. 3, '04.

Swiftest Dog in the World

The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs that show 75 feet in a second, while the gavelle has shown measured speed of more than eighty feet a second, which would give it a speed of 4,800 feet in a minute if the pace could be kept up.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening his corns, but clip this out and make him try it.

Plans Trains Of Air Cars

The First Step Toward the Creation of an Aerial Train

The keenest interest has been aroused in various circles in London by a report from the Hague that Herr Fokker, the Dutch inventor of the German battleplane, and proprietor of the works that manufactured it, proposes having himself seated in an airplane and towed by another plane. This is the first step toward the creation of an aerial train, the idea being an aerial locomotive with a chain of cars, similar to a modern railway train.

Herr Fokker has a specially constructed monoplane without motor ready for the experiment, but has great difficulty in getting an airman to lead the airplane. A flying train of air cars, some for baggage and some for passengers, is said to be the dream of this Dutch inventor.

TIED PEOPLE ARE DEBILITATED

Full Health and Strength Can Only Be Regained By Enriching the Blood

People who are tired all the time and never feel rested, even after a long night in bed, people who cannot regain weight and strength, who feel no joy in living, are in a condition described by doctors as general debility. A medical examination might show that every organ in the body is acting normally, but the pallor of the face will usually show that the blood is weak and watery. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body, but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the whole system. The first sign of returning health is a better appetite, an improved digestion, a quicker step and better color in the cheeks. The rich, red blood, reaching every organ and muscle, carries new health and vigor. The nerves are quieted, sleep becomes more refreshing, and with persistent treatment and a good diet the patient is once more enabled to enjoy life. The case of Mr. W. Dostater, R. R. No. 4, Tilsonburg, Ont., illustrates the great value of Dr. Williams' Pink Pills in cases of this kind. Mr. Dostater says: "I was troubled with pains throughout my whole body, was extremely nervous, did not sleep at night, and was further afflicted with rheumatism. In spite of different treatments this condition persisted, indeed I was growing worse, and had fallen away in weight to 130 pounds and was scarcely able to do any work. Then I began taking Dr. Williams' Pink Pills, and after a few weeks there was a noticeable improvement in my condition. I continued taking the pills, constantly gaining until I felt as well as ever I did. While taking the pills my weight increased to 170 pounds, and I can now do as good a day's work as anyone. My advice if you are not feeling well is to take Dr. Williams' Pink Pills and they will soon put you right."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Talk Of Teuton Exodus

5,000,000 Will Leave Germany to Escape War Burdens

New York.—Karl H. Von Wiegand, the Berlin correspondent of the Sun, cables in part: Convinced that peace will limit industry, create a great army of unemployed, and lessen the chances of the ambitious to achieve a career or attain independence in life, preliminary preparations are being made for emigration by hundreds of thousands of Germans.

The movement is taking active shape through organizations which are being formed and systematic plans are being worked out in a characteristic methodical way. The government, realizing the crippled industries, limited raw materials, the absence of an army and navy and of a mercantile marine, will leave perhaps several millions of men upon its hands for whom it will be difficult, if not impossible to provide a means of livelihood, is more or less openly encouraging the idea of a wholesale exodus. It has added a new department to the Ministry of the Interior called the National Emigration Office, which has been placed in charge of Privy Councillor Junk. It was established to give information and all possible assistance and advise German emigrants, but especially to keep track of the streams of Germans who are expected to leave Germany.

The number of persons who will leave or will be "shoved off" with the assistance of the government is estimated conservatively at 5,000,000.

The main streams of German emigration will be directed toward South America; that much already is evident. Intended emigrants are warned strongly against the United States in the general belief that Germans are not wanted there. Reports have been published here that the American labor unions are creating a general anti-foreign feeling in that country.

An Argentine immigration bureau has been established in Berlin. Among other inducements, the Argentine government pays part of the immigrant's expenses, including railway fare to destination, after arrival at Buenos Ayres, and ten days' food and lodging.

Southern Brazil is a second favorite, followed by Mexico and Chile. The first 500 Germans are scheduled to arrive in Mexico in September. A propaganda for Paraguay also has been commenced.

Minard's Liniment Cures Diphtheria.

At twenty-one a man knows every thing; at fifty he wishes he knew something.

There is nothing on earth that can get so badly stuck on itself as a sheet of postage stamps.

Chinese Firecrackers

Canton District Is the Centre of This Industry

China invented gunpowder and popularized fire-crackers. The cheapest kind of firecrackers is made of gunpowder rolled up in coarse bamboo paper with a covering of red paper, being regarded by the Chinese as bringing good luck. Alum is used to neutralize the smoke. The Canton district is the centre of this industry. The Chinese seem to use firecrackers upon every occasion—to send a parting guest, in wedding celebrations, or festivals and birthdays, and to dispel evil and bring good omens. China exports about £600,000 worth a year.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

How To Get The News

Editors Are Only Human, Or At Least Almost Human

Day before yesterday a perfectly nice lady called up and with tears in her voice reproved us for not mentioning the fact that she had a friend visiting her last week. We told her that she had not let us know that she had a visitor. Then she said, "Well, you should have known. I thought you were running a newspaper." Wouldn't that rattle your slats? Some people think that the editor ought to be a cross between Argus and Anna Eva Fay. They seem to think that our five senses are augmented by a sixth that lets us know everything that happens, even if he see, hear, feel, taste or smell it not. Dear lady, editors are only human, or at least almost human. If you have a friend visiting you, if you are going away, or have returned from a visit out of town, if Johnny falls and breaks his arm, if your husband chops his toe instead of a stick of wood, if anything happens to make you glad, or sad, happy or mad, call us up. Tell us about it. That's the way to get it in the paper.—From the Simcoe Reformer.

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

Hamburg Retaken

London.—Hamburg, which has been in the hands of Spartacists and Communists for a week, has been occupied by the government troops under Gen. Von Lettow Vorbeck. The Exchange Telegraph company dispatch from Copenhagen reporting the occupation says there was no fighting.

Expensive Fish

"Cheer up, old man, there's other fish in the sea."
Rejected Suitor: "Yet, but the last one took all my bait."—Life.

CUTICURA HEALS PIMPLES

In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and was disfigured. Could not sleep well and made feel unpleasant. Trouble lasted 3 months before used Cuticura and after using 2 cakes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Neabel, R. R. 3, Brussels, Ont.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

For free sample each of Cuticura Soap, Ointment, and Talcum, write to Cuticura Dept., A. B. C. Co., 150 N. 4th St., St. Paul, Minn., U. S. A. Sold everywhere.

Price Limit For Wives

Marriage agencies in Japan are now limited to twenty-five pesas fee on each match made. One peso for an introduction, five for a hunt for a life partner, and twenty-five more for actual binding; two together are the legal prices. This arrangement cuts out all the sorbets, carriages, flowers, jewelry and other expenses of this country, and after all is more economical.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, basing these worms are of the hook variety that cling to and feed upon interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Camouflaged Krupps

London.—The Krupp works at Munich have been sold to Americans, according to dispatches from Munich quoting newspapers there. It is added several industrial concerns in the Bavarian capital have also passed into U.S. hands.

Twenty-three thousand screws are used in the making of an ordinary airplane, and seven hundred pieces of wood in a single wing.

PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required.

Dr. Chase's Ointment will relieve you at once. Send for a box of all dealers, or Edmundson, Bates & Co., Limited, Toronto. Sample free if you mention this paper and enclose 2c. stamp to pay postage.

Keeps Harness New and Axles Strong

Imperial Eureka Harness Oil

—gets into the leather. Keeps it supple-looking new and strong as new. Keeps insects and moisture out. Prevents drying and cracking. Keeps breakage and repair bills down. Sold in convenient sizes.

Imperial Eureka Harness Grease

—makes oiling easy, quick and thorough. Should be in every barn.

Imperial Mica Axle Grease

prevents spindles wearing thin and hubs getting loose. The powdered mica and grease coats both spindle and hub lining with a covering of perfect lubrication that fills all pores and smooths all rough places. Makes loads easier to haul, reduces strain on harness and horses.

Sold in many sizes—1 lb. to 20 barrels.

BEECHAM'S PILLS

When your head aches, it is usually caused by your liver or stomach getting out of order. These "sick headaches" quickly disappear as soon as the stomach is relieved of its bilious contents. Right your stomach and regulate and tone the liver with Beecham's Pills, which rapidly improve conditions and promptly

Help Headache

Directions of Special Value to Women are with Every Box. Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U.S.A. In boxes, 25 cents.

A Health-Bringer!

Make your morning cereal dish a strengthener.

Grape-Nuts

is not only most delicious in taste, but is a builder of tissue.

"There's a Reason"

Kaiser Will Have Trial In London

London.—William Hohenzollern, the former German emperor, will be brought to England in a British ship and imprisoned in the Tower of London, according to the Daily Mail.

The death penalty will not be sought, the newspaper points out, but if he is found guilty, the allies will ask his banishment for life to a remote island, following the precedent of Napoleon's exile on St. Helena.

The international trial court had intended to try the former emperor alone, the Daily Mail says, but it is possible that the former crown prince Frederick will also be arraigned before it.

The note to Holland requesting the extradition of the former German emperor, it is understood, will be signed by twenty-two or twenty-three of the powers.

The former German emperor's guards at Amerongen have been increased, according to the Daily Mail correspondent, and his staff has been reduced. Lieut-Gen. Von Estorff has left for Berlin. Well-informed circles at The Hague, this correspondent says, do not believe that Holland will give the ex-emperor up to the allies. They are of the opinion that he will remain in Holland for the rest of his life.

Paris.—The officers' corps of the Prussian army and German navy, according to a Berne dispatch to the Havas Agency, have sent a lengthy appeal to the Queen of Holland not to permit the extradition of the former German emperor.

Winnipeg Strike Solved Nothing
Winnipeg.—The Western Labor News says: "After nearly nine weeks of strike and strife the metal shop workers went back to work. That is, the strike is off, though some men are not reinstated and some others refuse to go back on the conditions offered."

"The big three employers are still opposed to collective bargaining, as understood by trades unions. They refuse to deal with the business agents of the unions. Some of the smaller firms do recognize the unions in the true sense."

Saskatoon.—At the Empire theatre in Saskatoon and the Regina theatre, Regina, for the fair weeks there will be offered three times each day one of the famous Pantages vaudeville shows. These will comprise some 20 or 30 of the premiere vaudeville artists of the day, offering, in conjunction with movies, a two-hour show that should be a welcome added attraction to the already strong fair attractions.

Getting Rid of a Few
Charleston, S.C.—A trainload of Germans, formerly interned at Fort Oglethorpe, embarked on the transport Princess Matoika for Rotterdam to be repatriated.

Postal Workers Have Failed To Attain Object

Ottawa.—The government has decided that it cannot recede from the policy it has so far pursued in the matter of locked-out postal workers in Winnipeg. A delegation of members of the Amalgamated Postal Workers took a train back to the West, having failed in an attempt to persuade the government to reconsider its policy of making permanent appointments of postal employees who acted as strike breakers when the regular postal employees came out in a sympathetic strike on May 15.

The delegation was composed of C. Silvertz, president of the Amalgamated Postal Workers, Victoria; L. Pickup, Winnipeg; J. V. Johnston, Winnipeg, and A. Venables, Calgary.

"We came at the request of the strikers," said Mr. Silvertz, "with a view to securing a modification of the position the government has taken on this question. We could not ask for less than reinstatement for the employees locked out."

"In an interview with Sir Robert Borden, the premier said the question resolved itself into three points:

"1. Reinstatement as requested.
"2. To modify its attitude and reinstate some of the men; or,
"3. Adhere rigidly to the terms of the ultimatum issued by Hon. Mr. Meighen.

"We went before the cabinet for its reply, and it does not see its way clear to recede from the position it has already taken. We have failed in our object."

Belgium Ratifies Peace Treaty

Patriotic Demonstration in Parliament in Course of Proceedings

Brussels.—The Belgian foreign minister introduced bills in the chamber ratifying the treaty with Germany and the agreements connected with the treaty. The president of the chamber read a letter from King Albert congratulating the chamber and the country on the victory achieved after the horrors of war and exhorting the country to be united in the efforts necessary to the work of restoration and reorganization. The reading of the letter was greeted with a great patriotic demonstration.

The senate passed bills providing for due expression of the nation's homage to those killed in battle or executed during the war.

A Huge Contract

Reconstruction Is Started By A Big Outlay in France

Paris.—A vast reconstruction program for the whole of France at an estimated cost of 40,000,000,000 francs was announced in the chamber of deputies by M. Bedouce, budget reporter, during the debate on public works. The plan includes reconstruction of railroads, some of which will be electrified, and large projects for building canals and improving harbors.

New York.—A contract for rebuilding of the war ravaged Nancy district of France has been awarded to the Vulcan Steel Products company of New York, at an estimated figure of \$250,000,000, it is learned in financial circles here.

Cossacks Break Through

Ekatrinodar.—The Don Cossacks have occupied Millerovo and broken the Bolshevik front north of Millerovo. In their successful advance the Kuban Cossacks put to route four infantry and two cavalry regiments of the Bolshevik forces. West of Ekatrinodar, the Bolsheviks have been defeated on the Kertch peninsula on the eastern end of the Crimea.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Revolt Stalks in Berlin

Berlin.—The communistic leaven has again arrived at the fermenting stage in Greater Berlin, and there were indications that the strike movement may develop into a political insurrection. The candor and boldness with which the independent Socialists and their Communist henchmen are playing their cards shows they feel more sure of their footing than during the March revolt.

Polish Claims To Successes

Ukrainian Front Pierced and Bolshevik Forces Repulsed Everywhere

Paris.—The Polish forces have started a counter-offensive along the whole Galician-Volynian front, according to advices from Warsaw. The Poles claim that they have everywhere broken through the Ukrainian forces, and that the Lemberg-Halicz-Stanislaus railway line is again in Polish hands. The enemy suffered severe casualties, 3,000 prisoners, 30 machine guns and huge stores being captured.

It seems that the Ukrainians were everywhere taken by surprise and gave way at all points. The Poles occupied Brody, Pluchow, Pomorzany and Brzezany, taking 1,000 additional prisoners and much booty. The Lemberg message says that the Poles have pierced the Ukrainian front at several points. Crowds of Ukrainian prisoners are arriving at Lemberg and the population of the evacuated regions are returning. Bolshevik forces began an attack on the Polish front, but were everywhere repulsed.

Senate Refused to Change Vote

Ottawa.—The senate has voted down the motion of Sir James Loughheed, government leader, that they do not insist on their amendment on the prohibition bill, by a majority of seven, the vote standing 30 to 23.

Labor Leaders Remanded

Hearing on Charges of Sedition Has Been Postponed

Winnipeg.—Thirteen men, including a number of strike leaders, held on a charge of conspiring to execute seditious intention, were remanded in the police court until next Friday. The demand was of a peremptory nature, the hearing having to be started next Friday unless the Crown can show very strong reasons for another remand. Bail for those out on \$2,000 was raised to \$4,000 each.

R. J. Johns, said to be a radical socialist, whom the police have been looking for since the arrests started, voluntarily appeared at the police station and was remanded with the others. He is said to have finished some business in Montreal and to have returned to his home from there. He presented himself through his counsel, T. J. Murray, who went through the procedure of arrest, and was granted bail.

The man remanded are: R. B. Russell, William Ivens, W. A. Pritchard, Alderman John Queen, Alderman A. A. Heaps, George Armstrong, R. E. Bray, R. J. Johns, Sam Blumenberg, Oscar Schopelci, Moses Almazoff, Max Charitonoff, and Mike Verenczuk.

The last five named have been transferred from Stony Mountain penitentiary to the Winnipeg immigration hall.

Manitoba Crops Reported Good

In Most Parts Seasonable and Abundant Rains Have Fallen

Winnipeg.—Taking Manitoba as a whole, says the provincial department of agriculture in its crop report just issued, crop prospects are very promising. The hot weather during June has hastened maturity of the wheat greatly, and present prospects are for a very early harvest. In most parts of Manitoba seasonable and abundant rains have fallen, but in the northern districts the rainfall was comparatively scant until a few days ago. Hail damage so far has been very small. Oats and barley show considerable variation, germination upon spring plowing having been uneven in several districts. Cutworms did about the usual amount of harm, and grasshoppers were numerous in the southwest corner of Manitoba. Practically no other insect outbreaks are reported.

Hoover Resigns As Food Controller

Will Remain as Director of Newly Organized Grain Corporation

New York.—The resignation of Herbert Hoover as chairman of the board of directors of the food administration grain corporation and reorganization of the corporation under the name "United States Grain Corporation" was announced at the annual meeting of stockholders here.

Hoover's place as chairman will be filled by Julius Barnes, wheat director, who also is president of the corporation. It was said Mr. Hoover would continue as a director, but that his resignation of the chairmanship marked the first step toward his retirement from public life.

Sir Sam Steele's Funeral

Winnipeg.—No more impressive military funeral has ever been witnessed in Winnipeg than that of the late Maj.-Gen. Sir S. B. Steele, K.C., M.G., C.B., M.V.O. Official representatives of the Dominion, province and city and numerous public bodies joined with the military in paying tribute to the warrior whose death has been mourned on three continents.

Change in Japan's Trade

Japan's exports for the first three months of 1919 were valued at \$187,372,000, and her imports at \$239,599,000, showing an adverse balance of \$52,227,000. The adverse trend that has been maintained since the beginning of this year is taken as an indication that Japan's business is losing the war impetus and is going to run in its normal groove.—Japan Trade Bulletin.

Boy Murderer's Sentence

Winnipeg.—John William Cochran, the 15-year-old Indian boy who on June 25 last was found guilty of manslaughter of his employer, James R. Campbell, a farmer, of Rockwood, Man., with a long two-pronged wrench, on April 13, was sentenced by Mr. Justice Prendergast to 15 years' imprisonment.

Belgium to Canada

Brussels.—The Belgian ministry of the interior has offered a parcel of land in the neighborhood of Ypres to Canadian authorities for erection of a war memorial and museum.

Food Riots In Italy

Protests at Price of Food of Serious Nature

Forli, Italy.—After a great meeting here, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices. Soon the fury of the mob made no distinction and had no limits. All the principal shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor.

On the walls of the chamber they wrote: "These goods are at the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property. The food riots here, however, differ fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Forli most of the wheat taken from the shops was transferred to the care of the municipality or the chamber of labor to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at 8,000,000 lire. The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of socialists and republicans, and they ordered that the shops be reopened and the goods sold for half price under the supervision of representatives of the demonstrating masses.

Despite this apparent return to order in the riotous moment, the losses are enormous owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

Peace River Coal Leases Cancelled

Smoky River Leases Were Subject of Investigation By Senate Committee

Ottawa.—As a result of the investigation by the select committee of the senate appointed several days ago to enquire into the question of certain valuable coal leases in the Smoky River district of the Alberta, Peace river, some 200 miles north of Edmonton, leases have been cancelled by orders of Hon. Arthur Meighen, minister of the interior. As a consequence the application for the right to build a railway to be known as the Athabasca, Grande Prairie and Vermilion railway will go no further than its present stage.

Officials of the geological survey branch have testified before the senate committee that the coal area in question is probably the richest in Canada, and that if developed and connected with the main lines to the south it would be able to supply the whole of the west with a coal almost equal in quality to the Pennsylvania anthracite.

Hit the H. C. of L.

Winnipeg.—The committee of one thousand, formed to meet the situation created by the recent sympathetic strike, passed a resolution demanding that investigation and legislation should be instituted immediately to punish profiteers and check the high cost of living.

Tribute to Edmonton

London.—The scholars of the Edmonton, London, schools, who have been working a Union Jack, have presented it to the scholars of Edmonton, Canada, in recognition of the gallantry of the new Edmonton soldiers.

Builders Are Back

Winnipeg.—Members of thirteen building trades unions, who have been on strike for the past nine weeks, have returned to work.

With the reopening of work contractors began to rush plans for construction that was in prospect this spring, and whose abandonment has not been forced by the shortness of the remaining building season.

Lord Raleigh Dead

London.—Baron Raleigh (John William Strutt) has passed away. He was known as the "peer shopkeeper," having established a chain of milk shops in London which were supplied from his own farm. He was born in 1842.

Reduce U.S. Army

Washington.—Orders for the demobilization of the army by September 30 to peace time strength of approximately 233,308 officers and men, authorized by the National Defence Act, were issued by the war department.

W. N. U. 1271

Reign Of Terror In Russia

Women and Children Are Slain By the Bolshevik

New York.—A graphic story of a reign of terror in Bolshevik Russia is recited by John A. Embury, United States consul at Omsk, the seat of the Kolchak government, who has arrived here on a leave of absence. Mr. Embury declared no language could adequately picture the scenes of murder, violation of women, arson and theft which he had seen personally or had described to him by credible eye-witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa, by photographs, many of which he declared he had taken himself, and which record appalling instances of wholesale butchery of women and children.

Mr. Embury said he had visited Ufa immediately after the Bolshevik withdrawal before Kolchak's forces. He learned from survivors of Bolshevik occupation, he said, that the Bolshevik soldiers had looted the entire city and then organized a "government" consisting of committees. One of these committees, he said, was called the extraordinary committee on execution.

This committee, he declared, had all members of the city government rounded up, and ordered virtually all of them shot. The head of the committee, he said, had personally executed the president of the council, who was brought before him on a stretcher.

A few days after his arrival in Ufa, Mr. Embury said he followed a crowd of residents into a nearby wood, where they came upon scores of bodies of women and children, disclosed by the melting snow, who had been driven into the woods and brutally slain. He exhibited a photograph showing twenty of these victims, the bodies of many mangled almost past recognition. About 200 bodies were found in the woods, he said. Pupils at the Ufa high school, he said, had been lined up and questioned as to their sympathies, and all who did not profess sympathy for the Bolsheviks were shot or put to work of the most degrading character.

At Ossa, a city of about 30,000, Mr. Embury declared 2,000 bodies were found on the outskirts when the snow melted. He displayed photographs of some of these victims taken by Col. Teusler of the American Red Cross.

Pensions Bill Is Up For Discussion

New Measure Considered Satisfactory By Major Williams, M.P.

Vancouver.—"A new pensions' bill will be brought in parliament this session. It will not please everyone. It does not meet entirely with my approval, but I want to tell you that it undoubtedly meets the most general provisions of any pensions' bill in the world," said Major George B. Andrews, M.P. for Centre Winnipeg, speaking as a delegate at the N.W. V.A. convention.

The statement made by Major Andrews followed the presentation by the resolutions committee of a long resolution comprising no fewer than 17 sections, in which the desires of the veterans as set out in a large number of resolutions from various branches had been incorporated, and which it was hoped that the Dominion convention would endorse.

Help In Time Of Trouble

Britain and States to Act in Concert in Aiding France

Paris.—The Franco-British and Franco-American treaty, the Journal says, provide that the intervention of Great Britain and the United States on behalf of France against Germany shall be inter-dependent. Great Britain and the United States, it is advised, will only help France by combined action and not separately. The paper declares that their intervention must occur if the disarmament of the Rhine territory is not sufficient to protect France from German aggression.

No Abatement in Forest Fires

Halifax, Ont.—Two more settlers in the bush country west of the town are reported to have lost their farm buildings in the Sharp Lake fire, which is still raging. The victims are named Olsen and Fernholm. Other properties are in grave danger as the flames are spreading before a rising wind.

Some slight showers of rain are reported to have fallen in different parts of the country, but the effect on the fires have been negligible. At Frederick House the plant of the Beaver Board company is menaced, but is still standing.

British Premier On Making Of Peace

London.—Rt. Hon. David Lloyd George, the premier, had a good reception from all sections of the House of Commons. His speech was largely impromptu and discursive. He told of the peace conference's efforts to prevent wars in the future, and reviewed some of the striking restrictions put upon Germany in the treaty signed at Versailles.

Discussing the determination of the allied and associated powers to place on trial William Hohenzollern, the former German emperor, as the man chiefly responsible for the war, he declared that if such a course had been followed after other wars "there would have been fewer wars."

It was the intention to make such an example of Germany as to discourage others from "ever again attempting to repeat this infamy."

There was a significant passage when the premier first mentioned the league of nations. Many of the members cheered, but seemingly nearly an equal number burst into laughter. "I beg of you to try it. I beg of you to take it seriously," the premier protested. Proceeding, he declared: "If the world could be saved from the horrors of war, it would be a great achievement."

One member shouted, "Nobody wants it."

The premier paid special tribute to the work of the British expert advisers, which, he said, had been the object of the admiration of the nations at the conference, and ended with an appeal for the victory loan, with one of his typical dashes: "Don't demobilize the spirit of patriotism."

Speaking of the territorial terms of the treaty, he said the territory taken from Germany was a matter of restoration. It was restoration of Alsace Lorraine, he said, taken forcibly the land to which its population was deeply attached; it was a restoration of Schleswig-Holstein, the taking of which he described as "the meanest of Hohenzollern frauds, robbing a helpless country in the pretence they were not doing it, and then retaining the land against the wishes of the population"; a restoration of "Poland, torn to bits by Russian, Austrian and Prussian autocracy and now reunited under the flag of Poland." And, he added, "they are all territories which ought not to belong to Germany."

The British delegation, the premier said, has taken a stand resolutely opposing any attempt to put a predominantly German population under Polish rule, as it would be foolish.

Seats May Be Reserved By Mail

Regina.—Seats may be reserved for parties by mail at the Pantages theatres in both Saskatoon and Regina for the big fair week attraction. The program has been specially selected to suit the times, and will be found to comprise some of the very best vaudevillians of the day. It is suggested that you drop a line to the manager of either of these theatres stating your wishes, and you can rely on prompt and courteous attention.

Council Of Five Directs Conference

Paris.—Premier Clemenceau, Foreign Minister Balfour, Secretary of State Lansing, Foreign Minister Pichon, Baron Makino and Viscount Tittoni of Italy, decided to constitute a new council of five. This council of five will have as its members Foreign Minister Balfour, Secretary Lansing, M. Pichon, Foreign Minister Tittoni and Baro Makino, head of the Japanese delegation. The council will temporarily assume direction of peace conference affairs. A council of ten will not be constituted at the present.

Foreign Minister Tittoni made it clear at the meeting that Italy desires that all territory taken from Austria be definitely disposed of in the Austrian treaty. This immediately projects into the foreground the Fiume question, which it had been hoped could be avoided.

While the council received the admission from Signor Tittoni that the new Italian delegates will be more considerate than the old, it was a distinct disappointment when Tittoni expressed Italy's desire to have all the territory taken from Austria definitely allotted in the Austrian treaty, as this foreshadows a lengthy discussion. The council decided to appoint immediately a committee to execute the Austrian treaty, also a committee for the execution of reparations, and still a third to outline the Bulgarian frontier.

The council will hear the remaining delegates and M. Maklahoff, the Russian ambassador at Paris, on the Rumanian boundary, and especially the disposition of Bessarabia, a large part of which Rumania claims, and is at present administering, much against the Russian commission in Paris. The Russians insist that Rumania seized this territory under the guise of a specially created local government, which immediately ceased to exist after the Rumanians gained control.

The agreements between France and the United States, and France and Great Britain, for the defence of France against attack by Germany, it is understood, will not become valid as far as Great Britain is concerned until the Franco-United States convention is ratified by the United States senate.

Belgium has named its two members of the commission which will revise the treaty of 1839, and the peace conference has requested Holland to name its members so that a meeting can be held soon in Paris.

Municipal District

Voters' District

Prior to the year 1917 the right to vote at an election of Councillors for a Municipal District was limited to the parties who were assessed for land. In the year 1917, however, the right to vote for Councillors was extended to include the wives, husbands, sons and daughters of the persons assessed, provided such wives, sons and daughters were twenty-one years of age and resident within the boundaries of the Municipality. It was felt that the relatives of the owners or occupants of land were by their industry assisting both directly and indirectly in the progress and work of the Municipality and therefore it seemed only fair that they should have a right to say who they wished to carry on the business of the Municipality.

The amendment to the Act, however, which made provisions for these parties voting, placed upon the Secretary-Treasurer the burden of finding out who the parties were that were entitled to vote because of their relation to persons who were assessed, and of entering their names on the Voters' List. It was found that it was impossible for a Secretary-Treasurer without a great amount of labor to make a complete list of these people. For example, sons and daughters of persons assessed are entitled to have their names placed on the Voters' List when they become twenty-one years of age, and when the Secretary-Treasurer was required to make up the list it was absolutely impossible for him to do so properly without making a canvass of the entire district each year, inquiring as to when these parties became of age, and also as to whether or not they were resident in the Municipality. This being the case it was felt to be unfair that such a burden should be placed on that official, therefore, at the last session of the Legislature the Hon. A. G. Mackay, Minister of Municipal Affairs, introduced an amendment which has now become law, requiring all persons who were entitled to vote at an election for Councillors, because of their being wives, husbands, sons and daughters of persons assessed, to register their names with the Secretary-Treasurer.

All parties entitled to vote because of their relationship to a person assessed must make application to have their names placed on the Voters' List, otherwise they will not be able to vote at the election for Councillors. Such application must be made to the Secretary-Treasurer of the District sometime between November 1st and December 31st, both inclusive of each year, during the usual office hours. Application may be made personally by the person claiming the right to vote, or it may be made through the party on account of whose assessment an applicant claims the right to vote. All persons who are of the opinion they have the right to vote under this provision should therefore be careful to make application to have their names placed on the Voters' List in due time, so that they may be able to cast their ballots at the next election for Municipal District Councillors.

Another amendment to the provisions of the Municipal District Act in connection with the Voters' List should also be noted. That is an amendment to Section 88 of the Municipal District Act, which requires a copy of the Voters' List to be posted up at some central

place in each polling division in the Municipal District. As the Act formerly stood, it only required that there should be a copy of the Voters' List posted in the Secretary-Treasurer's office. This was inconvenient, because it frequently meant a special trip of quite a few miles, if an elector wished to find out whether or not his name was on the Voters' List.

Unless the business of a Municipality is controlled by an active and public opinion, there cannot be the results there should be from our Municipal Organizations. With the widening of the franchise and the making of additional provision whereby parties entitled to vote may make sure that their names are on the Voters' List, there will be an incentive to greater interest being taken in Municipal matters, as one of the weak spots in rural Municipal Organization in the past has been the lack of interest on the part of the majority of electors as to who should be elected Councillors.

J. H. WALLS,

Gleichen, Alberta

Craigantler Notes

J. T. Hutton, the newly appointed back manager at Standard, has taken over the secretaryship of Craigantler school. Mr. Ferguson has filled the position since coming to Standard and the people of the district are sorry to lose him, but glad to know he has been promoted.

J. B. and Chas. Johannsen have returned from the States. They report some of the States to be suffering from dry weather.

Capt. Grant was in town last week. He still holds to the team and buggy. Is it the genial captain got too fond of horses in the army or due to his Scotch shrewdness. However, we hope soon to see him with "Lizzy".

Our irrigators are all busy and may well congratulate themselves on having water these hot days. At present it would seem irrigators will again prove their contention "irrigation doubles crops".

Correspondence

Editor Gleichen Call:

I am informed by a number of persons who were present at the meeting at which Miss Noble spoke relative to the expenses born by the Women's Institute that she made a statement that she received nothing except expenses for her work.

I have before me a report which was supplied by the Provincial Government in reference to this matter which reads as follows:

Superintendent \$1800, two stenographers \$1320, general expenses and grants \$7380. I also have an itemized statement showing how all this money was spent. The grant amounting to \$10 to each local organization amounted to \$820 of the \$7380 above referred to.

I also have before me an additional report of the funds supplied by the Dominion Government for the same organization which reads as follows:

Salaries \$2,225, travelling expenses \$3,088.07, supplies \$1,400.37, printing and advertising \$61.68, equipment \$383.68, making a total of \$7,206.82. This makes a total, as I understand it, of \$19,205.82, which is the expenditure of the Provincial and Dominion governments for the Women's Institute in Alberta. If I am wrong in this understanding I will be glad to have any one put me right.

Yours respectfully,
W. D. TREGO.

Card of Thanks

The G.W.V.A. of Gleichen acknowledge with thanks a cheque for \$160.55 received from the ladies of Gleichen Women's Institute, being the amount realized at the entertainment given the returned veterans on June 20th.

JOSEPH O'KEEFE,
Secretary-Treas.

PINDER-GARRETT

A quiet wedding took place at the Central Methodist church, Tuesday, July 2nd, at 4 p.m., when Miss Eva Garrett, of Banff, was married to Mr. K. S. Pender, of Gleichen. The ceremony was performed by Rev. W. J. Haggith, of Banff, in the presence of the immediate relatives and a few of their friends. The bride was given away by her father, and was attended by her sister, while Mr. R. B. Beacom acted as best man. The bride wore a travelling suit of blue with tan and rose hat. The happy couple will spend a short honeymoon at Macleod, after which they will return to Gleichen.

Mr. and Mrs. Pinder are counted among the most popular young people in Gleichen and are widely known throughout this district and highly esteemed by all.

"Keith", as we all know him.

best, is a member of the firm of Pinder & Stabback, who are building up an excellent business in men's wear.

Miss Garrett was for several years a most successful teacher and her faithful work as Red Cross secretary during the war won great appreciation, many pleasant parties being given in her honor the past few weeks, the last being a "miscellaneous shower" at Mrs. H. D. McKay's home.

A "quarter" have a Thrift Stamp.

Kidney Back Pains Permanently Cured

**Dr. Hamilton Guarantees Prompt
and Thorough Cure**

I can cure you.
I have a remedy that has never failed in kidney disease.
My wonderful preparation is known as Dr. Hamilton's Pills of Mandrake and Butternut.
I guarantee Dr. Hamilton's Pills will restore the worst case of kidney suffering.
Pain in the back, sides and hips will be relieved.
Dizzy spells, headache and reeling sensations will be quickly remedied.
Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills.
If your run-down and languid condition can't be cured by Dr. Hamilton's Pills, then you are hopeless.
In thousands of cases Dr. Hamilton's Pills have restored health and more; they have built up constitutions that defied further inroads of kidney disease.
Purely a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where can you find a remedy in efficiency to approach Dr. Hamilton's Pills?
To be candid, you can't.
All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c.

Britain Planning Air Supremacy

**Government Subsidies Urged By
Committee of Civil Investors**

London.—Great Britain is actively engaged in laying the foundation of a world-wide aerial supremacy as complete as was her maritime supremacy prior to the war. Her plans to achieve this important object were started even before this country entered the war.

Moreover, she is completely convinced that aerial transportation will revolutionize her widespread empire and firmly weld it together by the speed that is the chief attribute of aircraft.

Realizing the importance aeronautics would play in the economic development of the world in general, and the reconstruction period after the war in particular, the British Government appointed the Civil Aerial Transport Committee May 22, 1917, to "consider and report to the Air Ministry with regard to:

(1) The steps which should be taken with a view to the development and regulation after the war of aviation for civil and commercial purposes from a domestic, imperial and an international standpoint.

(2) The extent to which it will be possible to utilize for the above purpose the trained personnel and the aircraft which the conclusion of peace may leave surplus to the requirements of the naval and military services of the United Kingdom and overseas dominions."

The report lays down the possibility of commercial air routes throughout British dominions, but says in connection therewith:

"We recognize, however, that military considerations must override all others."

By far the most remarkable portion of the report is the reservation made by Frank Pick, one of the members of the committee, when signing it. In it Mr. Pick says:

"The strategic position of this country in relation to the air differs fundamentally from the strategic position in relation to the sea. So long as the shores of the North Atlantic are occupied by the leading civilized peoples so long the British position is advantageous as a centre of sea power. But if air power is to usurp to any degree the place of sea power, and this seems probable so long as flight over land holds appreciable advantages over flight over sea, so the position of a country placed centrally as regards land must be superior to the position of a country placed centrally as regards water."

"The right to pass across other national territory without let or hindrance, relief from varying terms and conditions attaching to flight which may be onerous and irksome, the absence of customs restraints or tariff restrictions, and generally the absence of the apparatus for hampering or artificially routing trade are all wanted. On all these grounds it is submitted that the case for an international settlement is strengthened."

The committee has exhaustively studied the possibilities of aerial

transport with rigid dirigible airships. The investigation covers special voyages made in the giant sixty-ton airships of the R-34 type developed by the naval section of the British air force.

General Maitland himself in a review of the airship situation makes this prediction:

"The many practical advantages which the airship possesses for commercial purposes are not, perhaps, always appreciated.

"Present day airships, which in no way approach the limit of size, have a disposable lift of more than thirty tons, which enables them to embark on long flights without the necessity of descending for replenishment of fuel.

"There is no reason why an airship should not be fitted with engines as silent as those of a motor car. Sleeping accommodations can, in any case, be provided well away from the power plant, and there is complete absence of such noises as the singing of wires which would detract from the comfort of passengers in an airplane.

"The power plant can be readily split up into as many units as desired, and failure in the power plant does not involve immediate descent, while running repairs can easily be effected in the air.

"Even with landing grounds only ten miles apart, an airplane would be compelled to fly at a minimum height of about 3,000 feet, whereas an airship can cruise safely a few hundred feet above the ground, which considerably enhances the pleasure of the passengers by affording them an opportunity of enjoying the scenery."

Many Eskimos Died From Starvation

Caribou Failed and Fish Were Difficult to Get

Prince Albert.—Famine stalked last winter among the Eskimos of Chesterfield Inlet, Hudson Bay, according to word just received from Father Turquetil, O.M.I., and the mission at Chesterfield is much worried for lack of news of many of the Eskimos who formerly visited the station. The caribou have failed and there is no fish, writes Father Turquetil in a letter to friends in Prince Albert. Father Turquetil is the French priest who, about eight years ago, sent the report that the remains of Andre's balloon had been found and set the world agog with the news. He is at present at Chesterfield Inlet with Father Pigot studying the Eskimo language and carrying on the work of his mission. The first inkling that hunger and want were approaching came last November when a famished Eskimo, trying to reach the mission, fell in a faint on the ice of the lake near. It was not until the following day that he became conscious, when he gave word of his old squaw, whom the missionaries finally discovered under the remains of an old tent torn by the wind. She was stoically waiting death.

Many Eskimos died, for the Eskimo had put by no great stock of food. When the caribou failed and they tried for fish, they were difficult to get. In February it was a day's work to chop a hole through the ice, and even then the fishing could only be found in the deep places. When a snowfall came no one could venture out, and death stared them in the face. Last year forty or sixty Eskimos perished in this way. A short time ago the missionaries heard of one family where five children died of hunger.

German Comment On Peace

Announced Signing of Treaty in Black Borders

Berlin.—Some of the Berlin papers announced the signing of the treaty of peace in black borders with captions on their Versailles articles such as:

"Germany's fate sealed." "Peace and annihilation."

The Tages Zeitung, in closing an editorial, says:

"Clemenceau, Lloyd George and Wilson and their associates have sown dragon's teeth of eternal enmity."

The whole German press writes in the strain of melancholy pessimism. The Tagliche Rundschau says:

"What we need is a despot to compel the nation to work. If we are unable to instal him, our enemies will send him."

Dr. Dernberg in the Tageblatt says: "The cup is drained to the dregs. There is no sense in continuing the controversy. It is better to endeavor quickly to find our feet. The concessions made to us are not without value, and open the way to certain alleviations."

Must Be Profane

Woman: Is this parrot profane?
Bird Dealer: "Mercy me" and "Oh, fudge" is his limit.

Woman: He wouldn't do; I want a bird that will curse for a lady at a janitor.

SUNDAY SCHOOL LESSON

LESSON FOR JULY 13

BAPTISM

I. The Apostles' Commission (Matt. 28:18-20).

1. The authority of Jesus (v. 13). God gave Him all authority in heaven and on earth. As mediator and con-king, He possessed all authority. This authority extends over all the material world, angels, wicked men, devils and His own people. God highly exalted Him and gave Him a name which is above every name (Phil. 2:9). There is no other way of salvation, for the entire matter of redemption is in His hands (Acts 4:12). Since God has so highly honored Him, it is extreme folly to expect to be saved while disregarding Him.

2. The obligation of the apostles (vv. 19-20).

(1) It was to teach, that is, make disciples of all the nations (v. 19). They were to make known to the whole world that Christ had died to save sinners and that God had committed to Jesus the redemption of the world. Those who are Christ's disciples are bound to proclaim Him to others.

(2) Baptize those who believe (v. 19). This is the divinely appointed way of making a public confession of faith in Christ. The disciples must publicly take a stand for Christ. The application of water symbolizes the purifying effect of the blood of Christ and solemnly dedicates to the service of God. This baptism must be in the name of the Father, Son and Holy Ghost, showing that the believer has been brought into definite relationship to each member of the Holy Trinity.

(3) Teach the disciples obedience (v. 20). Profession is not enough, it must issue in obedience. Faith must result in works. To call Jesus "Lord" and do not the things which he says profits nothing.

3. The all-sufficient promise (v. 20). The Lord had told the disciples what would happen to them after He had gone away. He made it plain that perils of all kinds awaited them. Though the difficulties were great, nothing mattered so long as they had the presence and fellowship of the all-powerful Savior and Lord.

II. The Baptism of the Eunuch (Acts 8:34-40).

1. Philip preached Jesus Christ to him (v. 35). At the invitation of the eunuch Philip joined himself to the chariot and found the eunuch reading from the fifty-third chapter of Isaiah. Beginning with this Scripture he preached Christ. He did not preach Christ as a great teacher, but as a savior who had suffered and died instead of the sinner. He preached Him as one who had offered himself as a ransom for many. The fact that the eunuch, a great statesman, needed an interpreter of the Scriptures, even such a plain passage as the fifty-third chapter of Isaiah, shows the absolute need of a preacher. The printed page is valuable, but there will always be the need of a preacher. The gospel needs to be experienced before one can be a witness of its saving power.

2. The eunuch requesting baptism (v. 36). When Christ is truly preached men naturally desire to confess Him in baptism. In many quarters baptism has been unduly emphasized, but in others it has been disregarded. It is highly important that an intelligent understanding of its meaning be possessed; for that of which Jesus Christ gave an example and a command is highly important.

3. Philip baptizing the eunuch (v. 38). Having secured from the eunuch the proper confession Philip baptized him. It is faith in Christ that saves, but those who have genuine faith desire to seal it in baptism.

4. The eunuch rejoicing (v. 39). Confession of Christ brings joy. Those who obey the commandments of the Lord can go on their way rejoicing.

An Aviator For Life

Alcock Is One of Those Who Really Loves the Game

Capt. Jack Alcock, the Englishman who piloted the Vickers-Vimy biplane from Newfoundland to Ireland, is an aviator for life, so far as he knows. He has never followed any other calling since he flew first, in 1909, when he was 17 years of age. He has designed machines and he has built them, but always has activities have centered about some phase of flying. There are fliers to whom their work is just work, and who are just as bored when they take a plane into the air as is the most stodgy book-keeper at his desk, but Alcock is one of those who really loves the game and who begins to put on his flying clothes until he lands and takes them off.

The silent fisherman is the most successful. Girls should remember this when angling for husbands.

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over."

I had hot flushes and fainting spells. When I was on the second box of your Heart and Nerve Pills I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person.

"I am never without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Fate Of An Arctic Aviator

Three Intrepid Men Have Never Been Heard From

The recent attempt to cross the Atlantic by aeroplane recalls to mind the fact that an attempt was made to fly to the North Pole in a balloon 20 years ago, by the noted Swedish scientist and aeronaut, Salomon August Andree and his two companions, Nils Strindberg and Ferdinand Frakel.

The three intrepid men were last seen sailing over the snowy peaks of Spitzbergen and have never been heard of since. Their fate is a mystery locked away in the vast silences of the lands of eternal snow and ice.

Andree was not only a expert balloonist, he was also a skillful scientist, and he had carefully studied the question of Polar explorations. He had observed that at certain seasons of the year a steady current of air floated toward the north. Andree's plan was to set sail in this current, float over the pole, alight and take observations, and then wait for a favorable current to bear him home again. This, it must be remembered, was before balloons and aeroplanes had reached their present state of efficiency.

King Oscar II. of Sweden himself was a heavy subscriber to the fund which made the attempt possible, and at last, after months of waiting, the balloon was cut loose from its moorings on the 11th of July, 1899. Disaster threatened at the very outset, for the balloon dipped suddenly, and only the frantic throwing overboard of ballast enabled the vessel to rise. It was not long before it was lost to sight. It was never seen again.

Twelve months of anxiety and suspense followed, and then the Swedish government sent out three search parties. Various rumors were traced to their source, every possible clue was followed up, but without any tangible result. One circumstantial report was to the effect that the Eskimos in the Northwest had seen a "great white house" descending from the skies, and that three men, starved to death, had been found in it.

Tracing parties were sent out, but it was impossible to find the tribe, and the truth of the story was left in doubt.

Campaign On Anarchists

U.S. Government Makes Provision for Vigorous Steps Against Extremists

Washington.—Provision for vigorous steps by the federal government against bomb throwers and other anarchists and radicals, declared by government officials to be plotting the overthrow of the government, and spending \$2,000,000 monthly to that end, were made in the sundry civil appropriation bill, as reported to the senate.

In reporting the bill, the senate appropriations committee increased from \$1,400,000 to \$2,000,000 the fund of the department of justice for general suppression of crime. In addition, it added \$300,000 for a special fund to enforce the law against alien anarchists through deportations.

Canada's Aerial Record

London.—At a dinner of the Canadian air force at Shoreham the pilots assembled there had destroyed an aggregate of 219 enemy machines. Gen. Currie announced that the air force would be maintained in Canada. He advocated the retention of identity of units that had served in France in the reorganized militia to maintain the traditions built up in the field.

Liberty Of Speech And Press

**Commission on Industrial Relations
Recommends Reforms for
Workers**

Ottawa.—Sir Robert Borden, in the house, tabled the majority and minority reports of the commission on industrial relations. The majority report, which is signed by Judge Mathers, Carl Riordon, Charles H. Harrison, Tom Moore and John W. Bruce, recommends legislation for a maximum work day of eight hours with weekly rest of not less than 24 hours; minimum wage, especially for women, girls and unskilled labor; also government action to relieve unemployment through public works, to help the building of workers' homes, to restore fullest liberty of speech and press, and to establish a bureau for probing industrial councils to improve relations between employers and workers.

Inquiry by experts is suggested with a view to early legislation as the system of proportional representation in parliamentary elections; also state insurance against unemployment, sickness, invalidity, and old age. Other general recommendations are: Collective bargaining, payment of a living wage, right of workers to organize, and recognition of unions.

It also recommends steps towards establishment of joint plant and industrial councils; to poorest workers' children extension of opportunity to reach highest educational institutions; also that the commission's findings be put into effect in all work controlled by government where principles of democratic management can be applied; that the report and evidence be printed for general distribution, and that if the Dominion parliament has not power to legislate as proposed by the commission a conference of premiers and other representatives of provincial governments, also representative labor men, and employers, be called in Ottawa in order to reach unanimity on such points, and also to purify present provincial and Dominion legislation bearing on relations between employers and employees.

The commission was appointed chiefly to consider and make suggestions for securing permanent improvement in relations between employers and employees. It was deemed necessary to investigate the prevailing unrest which they ascribe largely to upheavals in Europe and general disturbances owing to the war, giving rise to a desire on the part of the workers generally to reach quickly an objective which ordinarily would require a process of evolution covering a long period.

Better Breeding Required

Well-Bred Stock Soon Repay Extra Cost Incurred

Farm surveys show us first that success in farming depends more upon good livestock than on good crops, secondly that on most farms the grade of stock kept is poor. This means that until the majority of farmers increase the quality of their livestock, agricultural conditions are not to improve materially. Since the average farmer is slow to take advice, it will be a long time before agricultural conditions will be bettered—unless advice is hurled at him in such a vigorous manner that he is forced to awaken.

Heavy guns, concentrated on one point, resulted in great advances during the war. Big advertising schemes achieve great things in the manufacturing world. The campaign for greater hog production and later for greater crops were very successful. At the present time a campaign for increased stock-breeding is being waged. With this there could be sandwiched a propaganda for a better quality of stock.

Statistics prove that well-bred stock soon repay the extra cost incurred in making the start. The department of agriculture has proved this and has spread the knowledge among farmers, but they are slow to heed. Perhaps a louder, more concerted, incessant dining of the fact into their ears might help, as it has done before. Therefore, let all interested in scientific agriculture arm themselves with facts about the matter and attempt to drive a wedge into the ranks of unprogressive farmer-breeders.

An Opening

"Yes, I guess I can give your son a job. You are one of our largest stockholders. What can your son do?"

"To be frank, nothing."

"Well, we have a number of young men doing that. He might assist one of them."

Nerve

"Can you lend me an umbrella?"

"Why, there's no sign of rain!"

"I know that. But the weather's sure to change. If I wait till it rains, you'll be using your umbrella yourself."

English Primate And Dry America

**One of the Bravest Things History
Had to Show**

London, England.—Presiding at the annual meeting of the Church of England Temperance Society at Lambeth Palace, the Archbishop of Canterbury described the drink prohibition in America as one of the most remarkable episodes in the whole history of social reform. "Our American brothers," he said, "always do things on an exceptional scale. There are never any half measures or any doubt about what they mean."

His Grace said that he had found the strongest difference of opinion amongst Americans as to what would happen during the next year. If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, and he did not think it was wise to dogmatize as to what would be the result of prohibition. None of them, however, would be in any doubt as to the thankful recognition they would give to what was one of the bravest things history had to show—a nation grappling with a nation's peril.

In England the best general public opinion had supported the restrictive policy which had been in force even where it had been most severely applied. Where restrictions were thought likely to prove most unpopular they had proved nothing of the kind. It would be fatuous today, because war was over, in regions where restrictions had proved to be not very unpopular, to relax these restrictions, because a certain number of people had interests involved. They must be resolved to use every bit of influence they could to secure the continuance of restrictions which had been proved to work so well.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

**Make This Beauty Lotion for a Few
Cents and See for Yourself**

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white in this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months.

When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Summer Course in Manitoba

A short course in agriculture and sociology, for the ministers and other rural leaders, under the joint auspices of Wesley College and the Manitoba Agricultural College will be given at the latter institution from July 28 to August 9. The speakers include Dr. George Albert Coe, of Union Theological Seminary, New York; Prof. O. H. Benson, director of boys' and girls' club work for the northwestern states; Prof. V. W. Jackson, B.S.A., of Manitoba agricultural college; G. W. Wood, B.S.A., professor of animal husbandry in Manitoba agricultural college; Rev. Prof. Hetherington, of Wesley College; President J. B. Reynolds, M.A.C.; Miss Kelso, director of home economics, M.A.C.; Dr. Anderson, author of "The Educator of the New Canadian"; Rev. Dr. Baird, of Manitoba College; Rev. Dr. Riddell, of Wesley College; Lieut.-Col. Wm. Grassie, Winnipeg.

No Successor to Earl of Reading

London.—No selection of an ambassador to Washington to succeed the Earl of Reading has yet been made by the British government, Andrew Bonar Law, government leader, stated in the House of Commons. Various suggestions have been made for filling the embassy post, Mr. Bonar Law said, but so far the government had been unable to get any of the gentlemen it desired to accept the appointment.

Hollweg Assumes Responsibility

Berlin.—Dr. Von Bethmann Hollweg, former German chancellor, has formally asked the allied and associated powers to place him on trial instead of the former emperor. The former chancellor says that he assumes responsibility for the acts of Germany during his term of office and places himself at the disposal of the allies.

Theoretical philosophers are sometimes practical fools.

It Took Years To Learn

**That in Dr. Chase's Ointment
There is Positive Cure for
Piles or Hemorrhoids.**

Reports come to us almost daily from persons who have suffered 10, 20, 30 years or more from piles or hemorrhoids before finding out that Dr. Chase's Ointment affords immediate relief and ultimate cure for this annoying and distressing ailment.

This is not a trouble about which people care to speak, but if you ask your friends about Dr. Chase's Ointment you will be surprised to hear how many have been cured of piles by its use. It is the one treatment for piles on which you can depend absolutely for prompt relief.

Mr. B. F. Tracy, Mining, Ont., writes: "For about thirty-five years I was troubled with itching piles, which kept me from sleep until I was completely worn out. Then at length I dropped off to sleep and rubbed myself raw. I tried every kind of ointment made without any permanent good. I also tried a homeopathic doctor for some time, but he only had momentary relief from his treatment. Three years ago I tried Dr. Chase's Ointment, and about half a box completely cured me. I have never been troubled with piles since, and can heartily recommend Dr. Chase's Ointment to anyone suffering from this terrible agony or from any other skin disease."

(This is to certify that the above statement is correct in every particular.)—Rev. H. Berry, pastor Methodist Church.)

Mr. H. B. MacDonald, Walkerton, Ont., writes: "Having suffered from piles for some time, I finally tried Dr. Chase's Ointment, which afforded almost instant relief, and in time, cure. I have great faith in Dr. Chase's Ointment, and think it superior to any ointment on the market. I would advise anyone suffering from piles to give it a trial."

Many continue to suffer from piles in the belief that a surgical operation is the only cure. Fortunately, Dr. Chase's Ointment is available, and has saved many thousands from the risk and expense of the doctor's knife, 50 cents a box, all dealers, or by mail postpaid, from Edmanson, Bates & Co., Limited, Toronto.

Treaty With Poland

**Support of Important International
Conventions Promised**

Paris.—The treaty which the entente powers and the United States signed with Poland has been made public.

Under this instrument, Poland agrees to protect the minorities against discrimination, assumes payment of such share of the Russian debt as shall be assigned to her by the inter-allied commission, and agrees to support important international postal, railway, telegraphs and miscellaneous conventions and other undertakings incidental to the establishment of a national standing.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

No Successor to Earl of Reading

London.—No selection of an ambassador to Washington to succeed the Earl of Reading has yet been made by the British government, Andrew Bonar Law, government leader, stated in the House of Commons. Various suggestions have been made for filling the embassy post, Mr. Bonar Law said, but so far the government had been unable to get any of the gentlemen it desired to accept the appointment.

Thos. Henderson, Brand Reader.

By-Law No. 97

A By-law of the town of Gleichen to expropriate certain lands and open up a roadway.

Whereas it is deemed advisable to continue Eighth Avenue through the cemetery and Agricultural Association Grounds to provide an approach to the Agricultural School;

And Whereas the Gleichen Agricultural Association has agreed to donate a strip thirty-two feet wide along the western boundary of the Agricultural Grounds;

And Whereas a further strip thirty-four feet wide is required along the eastern boundary of the Gleichen Cemetery Grounds to complete a full width roadway of sixty-six feet;

Therefore, be it enacted and it is hereby enacted by the Town Council of the Town of Gleichen:—

1. That the offer of the Gleichen Agricultural Association be accepted;
2. That the Town of Gleichen as owners of the Gleichen Cemetery grant the necessary strip of land, more fully described as follows:—

"Commencing at the south-easterly corner of the Gleichen cemetery, thence northerly ten chains, thence westerly thirty-four feet along northern boundary of the cemetery, thence southerly ten chains, parallel to the eastern boundary, thence easterly thirty-four feet to the point of commencement."

3. This by-law shall come into force immediately after the passing thereof.

The above is a true copy of a by-law to be submitted to the town council. Any ratepayer desirous of raising objection thereto is required hereby to give notice of his intention within fourteen days from the date hereof.

Dated at Gleichen this fourth day of July, A. D. 1919.

FOR SALE—Cheap—4-roomed cottage, good basement and large pantry built on two good lots facing east. Apply P. Kelley, Box 220, Gleichen, Alta.
